■ Internet:

- Eventid.net
- support.microsoft.com
- Google

The screenshot shows the Microsoft Product Support Services website. The search bar contains 'net time' and the results show 25 articles. The first article is titled 'WVW: NET TIME /S In LOGIN funktioniert nicht (500618)'. The second article is 'Fehlermeldung "Es konnte kein Zeitserver gefunden werden" nach dem Einstellen eines SNTP-Zeitservers mit dem Befehl NET TIME (243574)'. The third article is 'Verwendung von NET TIME für alle Arbeitsstationen und Server (120944)'. The fourth article is 'Wie Computer den Zeitquellenserver mit NET TIME ermitteln'.

The screenshot shows the EventID.net website. The URL is ftp://h2o-admin@www.h2o-gmbh.de/. The website has a navigation menu with links: Home, Search Events, Resources, Documents, TCP/IP Ports, Contributors, About Us, Subscribers, Q Finder, EventSupport, Firewalls, Maintenance, EventReader, and Advertise Here. The main content area displays event details for Event ID: 1000.

Event ID:	1000
Source:	Application Error
Type:	Error
Description:	Faulting application <application name>, version <version number>, faulting module <module name>, version <version number>, fault address <hex address>. For more information, see Help and Support Center at http://go.microsoft.com/fwlink/events.asp .
Comments:	Adrian Grigorof If the application is iexplore.exe and you cannot do "New window" without crashing the browser, then see Q272322 and Q316593. Adrian Florin Moisei (Last update 5/23/2003): Application: hl.exe (related to Half Life Sierra game) - According to various newsgroup posts this error occurs on
